

AMENDMENTS TO THE DRAWINGS

FIGURES 1-3 have been amended to clarify the reference numerals and to include reference signs 43 and 44. Replacement drawings are submitted herewith.

REMARKS

This amendment is responsive to the *Ex Parte Quayle* Office Action mailed April 26, 2011. The Office Action indicated that the application is in condition for allowance except for formal matters. Therefore, prosecution as to the merits is closed.

In particular, the Office Action objected to the clarity of the reference numerals in the original drawings. New corrected drawings were required. Applicant has prepared and submitted herewith replacement drawings in which the reference numerals have been clarified.

The drawings were also objected to for failing to comply with 37 C.F.R. § 1.84(p)(5). The Office Action alleged that the drawings failed to include reference signs 43, 44, and 63, as mentioned in the description. In the replacement drawings, reference signs 43 and 44 have been added. It is noted that in the original drawings, the rotation pins 42 and 43 had inadvertently been interchanged. As explained in the description, the first rotation pin 42 is provided in the recess 32 between first extensions 31a and 31b, while the second rotation pin 43 is provided in the recess 34 within the second extension 33. See, e.g., page 7, last paragraph, of the application. Furthermore, in the description, reference sign 63 refers to a bearing for the rotation pin 42. Reference sign 63 is illustrated in Figure 3.

Applicant believes that all formal matters have been addressed. Allowance of the application at an early date is respectfully requested.

Respectfully submitted,

CHRISTENSEN O'CONNOR
JOHNSON KINDNESS^{PLLC}
